DETAILED ACTION

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 8/26/2002 has been entered.

Specification

The amendment filed 8/26/2002 is objected to under 35 U.S.C. 132 because it introduces new matter into the disclosure. 35 U.S.C. 132 states that no amendment shall introduce new matter into the disclosure of the invention. The added material which is not supported by the original disclosure is as follows: Many citations on the replacement sections filed 8/26/2002 are to references published AFTER the filing date of the instant specification. This *a priori* constitutes new matter..

Applicant is required to cancel the new matter in the reply to this Office Action.

The disclosure remains objected to because of the following informalities: all of the ATCC Accession Numbers (e.g., page 2, line 33, page 3, lines 27, 32 and 38, etc) have been left blank..

Appropriate correction is required.

Claim Rejections - 35 USC § 101

The rejection of claims 1-2, 4-5, 8-12 29-41 under 35 U.S.C. 101 is

Withdrawn, based upon the amendment. Applicants are advised, however of the objection to the specification to the amendment. Upon cancellation of the new matte, the rejection will be reinstated.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

The rejection of claims 1-2, 4-5, 8-12 29-41 under 35 U.S.C. first paragraph for failing to teach how to use the invention is withdrawn. As stated above, however, upon cancellation of the new matte, the rejection will be reinstated.

Claims 1-2 4-5 8-12 29-41 are rejected under 35 U.S.C. 112, first paragraph, as containing subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. As stated above, the amendment to the specification is objected to because it introduces new subject matter into the specification.. Specifically, a number of the cited references which are use to lend support to the utility and

description of the claimed invention were published subsequent to the filing date of this application.
